About Logan Architectural Finishing

Our parent company, Logan Manufacturing Group, is an Australian family owned and operated company who has been supplying architectural products of the highest standard to the East Coast of Australia for over 45 years.

World leading Finishing Technology delivering a revolution in aluminium Powder Coating for architectural applications that produce the highest quality, consistently.

World Leading Powder Coat Facility

Featuring the latest state of the art technology, Logan Architectural Finishing can offer you a range of leading edge capabilities.

Intelligent operating system

Able to deal directly with clients and remove the manual process mistakes in traditional operations.

Improved gun technology

Delivers uniform coat thickness along the profile through enhanced powder transfer efficiency, creating a perfect visual appearance each time.

Chrome-free pre-treatment

Reduces effluent to produce a cleaner, more environmentally sensitive product.

Rigorous testing protocols

Strict quality control measures in place across the plant creates peace of mind and evidence to support the world class finish.

Lead-times

Shorter turnaround times than traditional methods as we drive efficient planning and visibility.

Dedicated transport

Takes the hassle out of pick up and drop off.

Accreditation & Warranty

As an approved applicator for Dulux and Interpon powder coating, our pre-treatment and application processes are assessed against comprehensive criteria on a daily and weekly basis.

Process testing is performed on each and every job we undertake. This ensures that we maintain the highest standards of quality for every product we deliver. We provide a 10-25 year warranty on all finishes.

Whatever your project needs, Logan Architectural Finishing is the only choice for the long term performance of your architectural aluminium.

Compliant with Australian Standard AS3715
